

Customer: Perfect Supplements

Issue date: March 19, 2021

Product: Hydrolyzed Bovine Collagen Agglomerated

BSE STATEMENT

The manufacturer acknowledges that the raw material used in the manufacturing of **Hydrolyzed Bovine Collagen Agglomerated** is derived from animals born, raised and slaughtered in Brazil under the supervision of a veterinarian. According to OIE (World Organization for Health), Brazil is considered at negligible risk for **bovine spongiform encephalopathy (BSE)**. The raw material also undergoes an alkaline treatment and hydrolysis process during the process of collagen extraction
