

Customer: Perfect Supplements, LLC

Product: Hydrolyzed Bovine Collagen

COUNTRY OF ORIGIN

This document confirms that the raw materials used in the production of **Hydrolyzed Bovine Collagen** are wholly manufactured and sourced in Brazil. The raw material is submitted to an enzymatic treatment and hydrolysis process that extracts the collagen from the hides of the animals (sections behind belly, legs and feet) and comes from animals that were exclusively born and raised in Brazilian territory.

A handwritten signature in black ink, appearing to read "M. P. J. J. J. J. J.", positioned above a horizontal line.
